A. Best−response correspondences
Matching Pennies
p (Player 1: prob of Top)
q (Player 2: prob of Left)
NE (0.5, 0.5)
Player 1 BR(q)
Player 2 BR(p)
B. Brouwer's fixed−point theorem
Every continuous f: [0,1] −> [0,1] has f(x*) = x*
f(x)
x
f(x) = 0.3 + 0.5 sin(pi*x)
f(x) = 1 − x + 0.3 sin(2*pi*x)
f(x) = x^2
