Best−response correspondences − Battle of the Sexes
Three Nash equilibria: two pure at corners, one mixed at (q*=2/5, p*=3/5)
1.2
0.9
0.6
0.3
0.0
p (Player 1's probability of T)
Pure: (T,L)
Mixed
Pure: (B,R)
0.00
0.25
0.50
0.75
1.00
q (Player 2's probability of L)
Best response
Player 1: p*(q)
Player 2: q*(p)
